

DANNY MANTILLA

FRONT-END DEVELOPER

Software Engineer with expertise in front-end development, technology, and design. As well as passionate for creating fresh, useful, and high-quality software. Interested in a position in which I can apply my skillset to optimize your company's tech performance.

WORK EXPERIENCE

Freelance Front-end Developer - Luxerlee Sleepovers

Feb 2024 - Apr 2024 [Miami, United States]

RESPONSIBILITIES

- Designed the business website according to the indications given by the client.
- Implemented the design as pixel-perfectly as possible, taking into account accessibility, performance, and good development practices to provide an enjoyable UX.
- Set up a CMS to give the client the ability to change the website's content per their needs.

KEY ACCOMPLISHMENTS

- Increased the business' reach in the market by successfully delivering the website to strengthen their digital presence, which used to rely on social media accounts only.
- Provided the client with an organized way of receiving and managing bookings made by their customers through the use of the CMS's API.
- Improved the company's impression with the website, making it look more professional in the eyes of the people.
